Dear

STAT

Now that your summer assignment is complete, I want to express the appreciation of FBIS for your work with the Television Center. You contributed substantially to the foreign television processing effort and FBIS videotape service to its consumers. Your helpfulness and liaison with these consumers was especially important.

Your colleagues have enjoyed working with you this summer and join me in wishing you all the best for the coming school year as you begin your studies at the University of South Florida.

Sincerely,

STAT

Deputy Director
